PRINCIPAL'S MESSAGE

Welcome to the 2018-2019 academic year! I hope that you've all had a safe and restful summer break. We are very pleased to continue working with our returning families, and look forward to establishing warm, supportive relationships with families that are new to our school community.

My name is Leanne Hellman, and I have taken on the role of Principal at County Central High School. I was born and raised in Calgary, and I received my B. Sc. Kin. and B. Ed. degrees from the University of Saskatchewan in 2002. I have also completed my master's in Leadership and Administration from Gonzaga University in 2009, and my master's in Human Resources from Heriot-Watt University in 2015. Having taught senior high PE for 5 years in Calgary, I moved to Medicine Hat where I was the Lead Teacher for PE, and then the Vice Principal. I spent the last two years as secondary school principal at the Canadian International School in Abu Dhabi. The majority of my experience has been in Grade 7-12 schools, so I feel like CCHS will be a really good fit. I'm looking forward to getting to know our students over the next few months, as well as meeting with our families and neighbors to see how I can best serve the school and the community. My door will always be open to you should

you want to stop by for a visit.

We have a few new staff members joining our team this year, and I would like to take the opportunity to introduce them to you: Ms. Karley Tarney comes to us from the Outreach school and will be teaching junior high social studies. Mr. Dakota Mattson is filling in for Mrs. Mattatall's maternity leave and will be teaching Grade 9-11 sciences as well as foods. Mr. Greg Styles, formerly of Livingstone Range school division will be teaching Career & Technology Studies with an emphasis on design. Mrs. Sara Woofenden is here half time and will be teaching Sr. high options & Jr. high health.

As we start the year, I would like to express my gratitude to the CCHS family for your warm welcome and kind words. Coming in as a new principal can be daunting, but I have been shown a great deal of kindness and openness by parents, students, and staff, and for this I am grateful. I am looking forward to getting to know you all, and I wish you the very best in the coming year.

2019 CLASS OF HIGH SCHOOL COUNTY CENTRAL

Secondary Homework Guidelines and Expectations

As a parent of a secondary school student, you have likely had the following conversation with your son or daughter:

Parent: "Do you have any homework tonight?"

Child: "No."

Parent: "Okay."

It is not uncommon for students in secondary school to avoid homework and studying, as they have many more 'important' things to do (such as spending time with friends or playing video games). However, in an effort to help our students develop positive habits and work ethics, we would like to change that conversation. Simply put, secondary students have homework every night.

Homework consists of 4 tasks:

- 1) Anything that a teacher assigns as homework

Example: "For homework tonight, read pages 7-14 and answer questions 1, 3, 5 and 7."

- 2) Any work that did not get completed in class.

If a student is meant to complete a task (assignment, project) during class time, and it does not get completed by the end of class, it still needs to be completed and therefore becomes homework.

- 3) Studying, reviewing and revising for tests.

Students should be reviewing their notes, highlighting important information, making note cards or study guides, and practicing what they've learned on a regular basis, rather than leaving all studying to the last minute.

And if a student has exhausted the first three options, then...

- 4) Free reading.

Reading is exercise for the brain. It helps develop vocabulary and imagination.

Creating a Routine:

We recommend that students set aside a consistent time each evening for homework, and that they sit down in a quiet space for that period of time each night. The space should be free of distractions (such as music, tv or mobile phones), but should be near a supportive adult who might assist them if needed.

Recommended times:

Students in Grade 7 can expect to have approximately 30 minutes of homework each night. The amount of homework will increase gradually, with Grade 12 students having at least two hours of homework each night. It is important that we start developing positive habits and routines at an early age, so that our children will be ready for the demands of high school and university.

Therefore, when your child comes home from school, the question to ask will no longer be "Do you have any homework?" but rather:

"It's study time! Which of the 4 homework tasks will you be working on this evening?"
